Aug 10—Present

Contracting for many clients from startups and their MVPs to SMEs to big companies and their complex corporate websites. Including the UK's largest business finance intermediary raising over £60M/year; an international agency for arts, culture and live entertainment and one of the biggest online Real Estate companies in the UK.

Front-End Developer

[Softonic, Barcelona](#)

Jul 14—Jan 15

Worldwide market leader in app downloads. Ultra-high performant website with +100M unique monthly users and 6M downloads worldwide. Working in the Engineering Dep. as a Front-End developer with web/graphic design abilities and expert knowledge in critically performant HTML5, CSS3 (SCSS), Twig and advanced native JavaScript in a multidisciplinary development team using the latest technologies and projects under Agile Methodology (Scrum, TDD) and continuous learning (workshops, conferences, events...). I helped plan and develop the new responsive website and optimized the code and UX, increasing responsiveness, speed and revenue to the company.

Lead Senior Front-End Developer

[Fitbug, London](#)

Jun 12—May 13

A startup building Bluetooth-enabled devices combined with a website and app to help manage everyone's nutrition, activity and health. I was in charge of the Front-end/UI of the company websites and mobile app, working with the Creative team to deliver a great User Experience. Full website redevelopment using HTML5/CSS3, Bootstrap, a custom MV*/OOP JavaScript, jQuery, Handlebars.js and Highcharts through Git-

flow. I made the website 5x faster and fully responsive, the member's area uses a REST+JSON API and OAuth authentication. Organic SEO optimization. Also built iPhone/iPad app using HTML5/JavaScript (PhoneGap + Sencha Touch). Worked with back-end team using PHP and Smarty templating engine.
